Multi-media	Turned back to camera or lacked necessary equipment to present.	Came prepared and faced camera but spoke too softly or quickly to be heard.	Spoke up well so could be heard in all classrooms. Had some issues with the tech, but mostly knew how to use it.	Conscious of the location of camera and mic. And used them both to full advantage. Also knew how to adjust control the camera so it faced them, and set it back to facing the classroom when done. Knew how to connect their computer to Zoom.
